

HOME AUTOMATION & SMART OFFICE SOLUTIONS

Smart Living, Intelligent Workspaces & Seamless Control

About Smart Automation Solutions

Home and office automation solutions transform conventional spaces into intelligent, connected environments that enhance comfort, security, energy efficiency, and control. These systems integrate electrical devices, appliances, and security systems into a centralized platform accessible via mobile apps, touch panels, or voice commands.

Smart automation is ideal for **Residential Homes, Villas, Apartments, Corporate Offices, Commercial Spaces, Hospitals, Hotels, and Institutional Buildings.**

Scope of Smart Solutions

Core Offerings

- Smart Home Automation Systems
- Smart Office & Workspace Automation
- Lighting Automation & Scene Control
- HVAC (AC) Automation & Energy Control
- Smart Security & Surveillance Integration
- Voice Control & Mobile App Integration
- Energy Monitoring & Smart Metering

Smart Homes – Key Features

- **Lighting Control:** App/voice-based control with scene settings (mood, night, away mode)
- **Appliance Automation:** Control of fans, geysers, TVs, curtains, and other devices
- **Smart Security:** Digital door locks, video door phones, CCTV integration
- **Energy Monitoring:** Real-time electricity usage tracking
- **Remote Access:** Control your home from anywhere
- **Safety Systems:** Gas leak detection, smoke sensors, motion sensors

Smart Offices – Key Features

- **Automated Lighting & Energy Saving Systems**
- **Meeting Room Automation & Scheduling Systems**
- **Access Control & Attendance Systems (Biometric/RFID)**
- **Centralized Control of Electrical Systems**
- **HVAC Automation for optimized energy usage**
- **Integrated Surveillance & Security Systems**

Supply | Installation | Services

1. Supply

- Smart Switches, Touch Panels & Controllers
- Smart Lighting Systems & Dimmers
- Sensors (Motion, Temperature, Smoke, Gas)
- Smart Locks, Video Door Phones & Security Devices
- Smart Curtains & Motorized Systems
- Energy Monitoring Devices & Smart Meters
- IoT Gateways & Control Modules

2. Installation & Commissioning

- Complete wiring & smart device installation
- Integration of lighting, appliances & HVAC systems
- Configuration of mobile apps & control systems
- Voice assistant integration (Alexa / Google)
- Testing, commissioning & user training

3. Services & Support

- System maintenance & troubleshooting
- Software updates & feature upgrades
- Remote support & monitoring
- Expansion & retrofit solutions
- AMC (Annual Maintenance Contracts)

TECHNICAL CAPABILITIES

System Capabilities

- App-based & voice-controlled automation
- Wired & wireless automation solutions
- Scalable systems for small to large spaces
- Integration with CCTV, access control & energy systems
- Secure and reliable communication architecture
